**Total Credits: 48**

### Additional Cost:

The total cost of this program is higher than the other streams due to the 6 - 1 student CPE supervisor ratio and other factors associated with the costs of running a clinical program.

### Meeting Canadian Association of Spiritual Care (CASC) and provincial government standards:

Students who graduate from the MAPPL with their 3<sup>rd</sup> CPE unit designated by CASC as “advanced”, will meet the minimum education expectations of persons working in BC Health Centres. Students who complete a 2<sup>nd</sup> “advanced” unit, and subsequently complete 1000 hours of spiritual care experience in a residency, or other workplace position, can apply for certification as a CASC specialist.
